

## Select Student Feedback, Brooklyn Center for Academic and Scientific Excellence

Question	Response
What was your favorite thing about the coding class?	"My favorite thing was that Matthew (our instructor) explained everything well. He always made us practice our coding and he was always patient with our questions."  "I liked how we learned about each command in-depth rather than just learning to copy and paste the lines of code an exact way, because it gave us a deeper understanding of exactly what we were doing and why."
What is one thing that could be improved about the coding class?	"To be honest, the coding class was great."
Overall, what was your favorite part of the program?	"Coding was my favorite part because it was really engaging."  "I think my favourite part of the program was the coding class, because I learned a lot about coding and it helped remind me why I found coding enjoyable when I first started."
Other comments about the program?	"It was a learning experience and I enjoyed every second."  "It was very fun and all the instructors and staff were welcoming and accommodating to our needs. Thank you!"  "I absolutely loved the program. It really gave me a sense of security because I know that I'll have amazing people helping me throughout my years at Brooklyn College. Thank you!"
